

**ROCKWORKS CLIMBING WALLS  
'SPRAYED AND CARVED CONCRETE'**

For Sheffield Wildlife Trust in partnership with Sheffield Council.  
Built in 1999 from 80 sq. metres of sprayed and carved concrete.  
Completed with impact absorbing rubber crumb surround surface.  
A realistic climbing boulder to reflect the local gritstone tors that lie close to Sheffield.  
Designed to complement the other adventure type facilities that have been installed to regenerate an inner city park.
